

Benefunder Agreement Information

The Wisconsin Foundation and Alumni Association has established an agreement with Benefunder to provide the opportunity for researchers from the University of Wisconsin-Madison, representing a range of fields – including health sciences, engineering, and law – to be profiled on Benefunder’s platform. These researchers will gain access to Benefunder’s novel funding channel, which will connect them with philanthropists eager to build lasting relationships, and fund cutting-edge research in the sciences and the arts that is impacting and changing our world. Funding associated with establishing a relationship between University of Wisconsin-Madison researchers and Benefunder should be coordinated through the Wisconsin Foundation and Alumni Association using University of Wisconsin Foundation Funds.

For further information regarding the arrangement see the hyperlink at [Benefunder Partners with University of Wisconsin-Madison to Accelerate Research & Innovation](#)
