

New way to Order Product from the UW-Madison MDS Warehouse

The purpose of this document is to describe a change to how DCF employees will order their customer-owned or “locally stocked products” that are warehoused at the MDS facility in Verona, Wisconsin. These products consist of items from categories such as copy paper, envelopes, paper forms, employment and training materials, equal rights materials, unemployment insurance materials, vocational rehabilitation materials and workers compensation materials.

Currently, shoppers can find these products on the Shop@UW Store Lobby page by clicking on the “UW-Madison MDS Warehouse” link.

Starting in April 2015 shoppers will need to use slightly different navigation in order to purchase these same products.

Order Product from the UW-Madison MDS Warehouse

In April 2015, shoppers will need to use the following navigation:

Shoppers who click on the link “UW-Madison MDS Warehouse” will navigate to a new page. This new page will look like the following:

Two methods to find locally stocked products

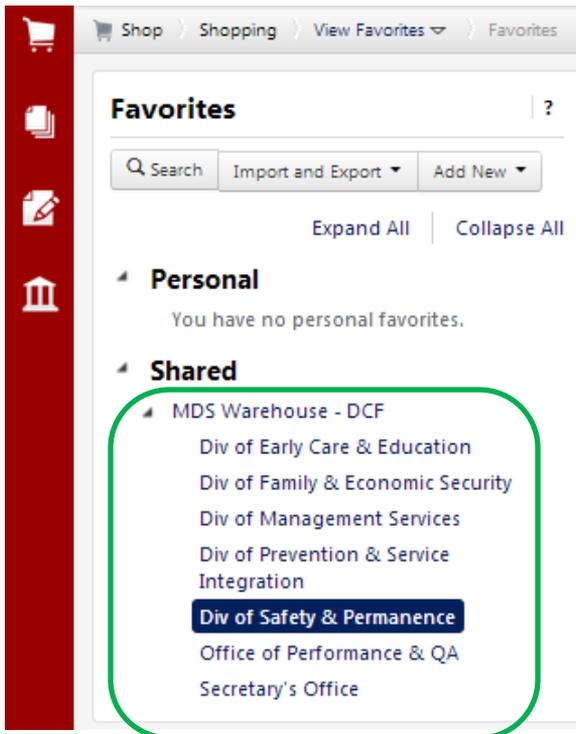

Shoppers will be able to use two methods to find the locally stocked products: (1) Use a shared favorite and (2) use the “shop & compare” search.

1. Use a Shared Favorite

The easiest method to find familiar locally stocked products will be to use a shared favorite. Shoppers can quickly navigate to the shared favorite by clicking on the shopping cart icon in the upper left of the Shop@UW application and then clicking on the “View Favorites” link in the “Go To” section.

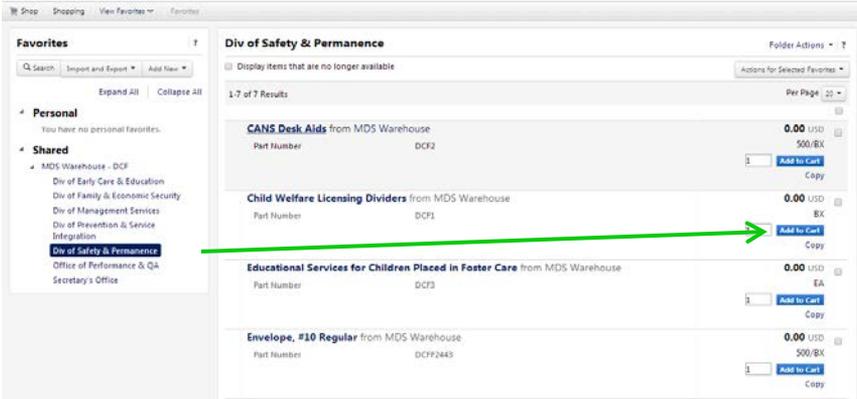

This will bring the shopper to the list of shared favorites. The items can be found in a new grouping called “MDS Warehouse – DCF”. Expanding that shared favorite will reveal the same categories and set of products that shoppers should be familiar with.

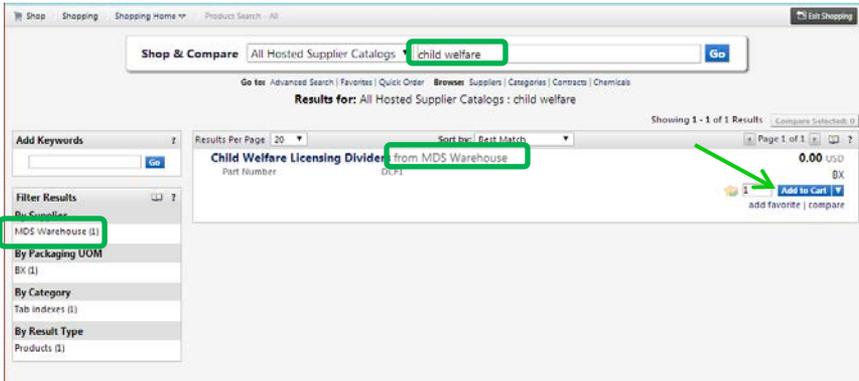

Clicking on a category will display the items in that category.

Shoppers can then add an item to the cart by clicking on the “Add to Cart” button, and continue shopping.

2. Use “Shop & Compare” (Shop at the Top)

Another option for shoppers is to use the “Shop & Compare” search that is located near the top of the screen. Shoppers can enter a phrase of an item description or a stock number, and the resulting items will be displayed.

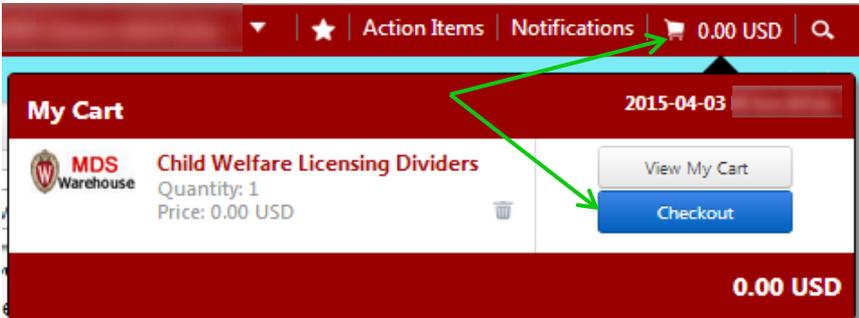

The shopper can then add the item to the cart by clicking on the “Add to Cart” button.

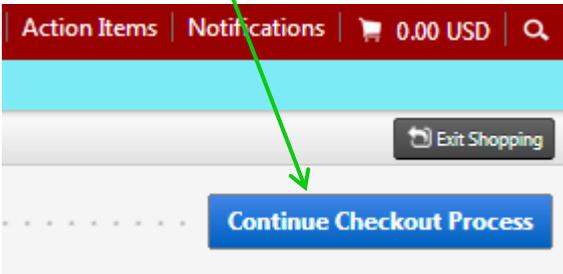

After shopping, placing the order

After the items have been added to the cart, completing the order will include the standard checkout process, reviewing the final cart and entering the shipping information.

Click on cart, and then the Checkout button.

Then click on the "Continue Checkout Process".

At the Final Cart Review, you will notice that quantity available is located in the column third from the right.
